

Jaiswal Group

Recycling. Refining. Recreating the Future.

ABOUT US

At Jaiswal Group, we are shaping a sustainable future by blending innovation with integrity.

Through our two major divisions — AJ Trading (Scrap Recycling & Metal Trading) and Vishwakarma Metal Industry (Aluminium Cookware Manufacturing) — we deliver 0 eco-friendly solutions, quality craftsmanship, and value that lasts.

OUR MISSION IS SIMPLE YET POWERFUL:

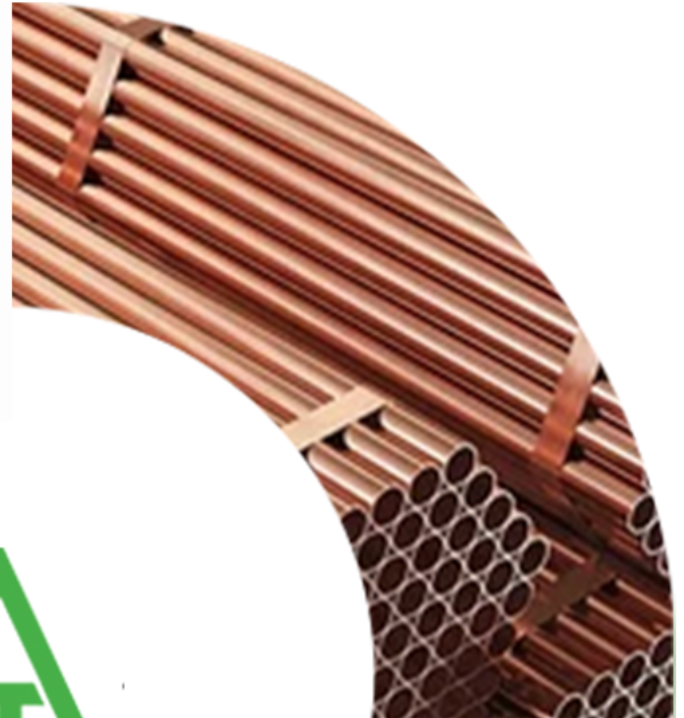

To create a greener tomorrow through responsible recycling and superior metal products.

AJ Trading Co.

Your One Stop Recycling Partner

Scrap Recycling • Metal Recovery • Sustainable Supply

ABOUT US

A division of the Jaiswal Group, is a trusted name in metal scrap recycling and resource recovery. We process both ferrous and non-ferrous materials, converting industrial waste into valuable raw metals for manufacturing and infrastructure.

With a focus on sustainability and efficiency, we recycle iron, steel, copper, aluminium, transformers, conductors, telecom scraps, and batteries, ensuring maximum recovery through safe, eco-friendly practices.

From scrap to strength – AJ Trading turns waste into lasting value.

ABOUT US

Ferrous Materials

Iron | Steel | Cast Iron

Non Ferrous Materials

Aluminium Scrap | Copper Materials
Brass Scrap | Gunmetal and Bronze Alloys

ACSR Conductors

Weasel Conductors | Dog Conductors
Panther Conductors | Moose Conductors
Zebra Conductors | All other Types / Conductor Types

Battery

VRLA Battery | PP Battery
Tower Battery | UPS Battery
Industrial Battery

Transformers

Current Transformers | Potential Transformers
IBT Transformers | UAT Transformers

Telecom Scraps

GSM Antenna | MW Antenna | Power Cables
Jumper Cables | Feeder cables | BTS Cabinets
MSC/BSC | All types of transmission cards

Cables

Power Cables | Jumper Cables | Feeder Cables | Telecom Cables
Control & Industrial Wires

FERROUS MATERIALS

We recycle iron, steel, and cast-iron scrap, transforming heavy industrial and structural waste into high-grade reusable metal for foundries and manufacturing

Iron

Steel

Cast Iron

NON FERROUS MATERIALS

We process aluminium, copper, and alloy scrap to recover pure, high-quality metals that meet industrial standards while promoting sustainable resource use.

Aluminium Scrap

Copper Materials

Gunmetal & Bronze
Alloys

Brass Scrap

ACSR CONDUCTORS

We recover and refine aluminium conductor steel-reinforced (ACSR) cables – efficiently separating aluminium and steel cores to produce high-quality recycled materials for electrical and power transmission industries.

Weasel Conductors

Dog Conductors

Panther Conductors

Moose Conductors

Zebra Conductors

**All other Types/
Conductor Types**

BATTERY

We specialize in recycling VRLA, PP, Tower, UPS, and Industrial Batteries, recovering valuable lead, plastic, and chemical components through safe and eco-friendly processes — ensuring efficient reuse and minimal environmental impact.

VRLA Battery

PP Battery

Tower Batter

UPS Battery

Industrial Battery

TRANSFORMERS

We recycle Current Transformers, Potential Transformers, IBT Transformers, and UAT Transformers, carefully extracting copper windings, iron laminations, and core materials through precision dismantling — ensuring safe handling, high recovery value, and full environmental compliance.

Transformers

UAT Transformers

IBT Transformers

TELECOM SCRAPS

We process and recycle a wide range of telecom equipment and components, including GSM and MW antennas, power and feeder cables, jumper cables, BTS cabinets, MSC/BSC units, and all types of transmission cards — recovering valuable metals and materials while ensuring secure and eco-friendly disposal of obsolete network hardware.

GSM Antenna

Transmission Cards

CABLE SCRAP RECYCLING

We efficiently recycle a wide range of electrical and industrial cables, recovering valuable copper and aluminium through safe and eco-friendly processes. Our operations include the recycling of power cables, jumper cables, feeder cables, and telecom wires, ensuring maximum metal recovery with minimal environmental impact.

RECYCLED CABLE TYPES:

Power Cables

Jumper Cables

Feeder Cables

Telecom Cables

**Control &
Industrial Wires**

WHY CHOOSE US?

Sustainable and eco-friendly recycling operations.

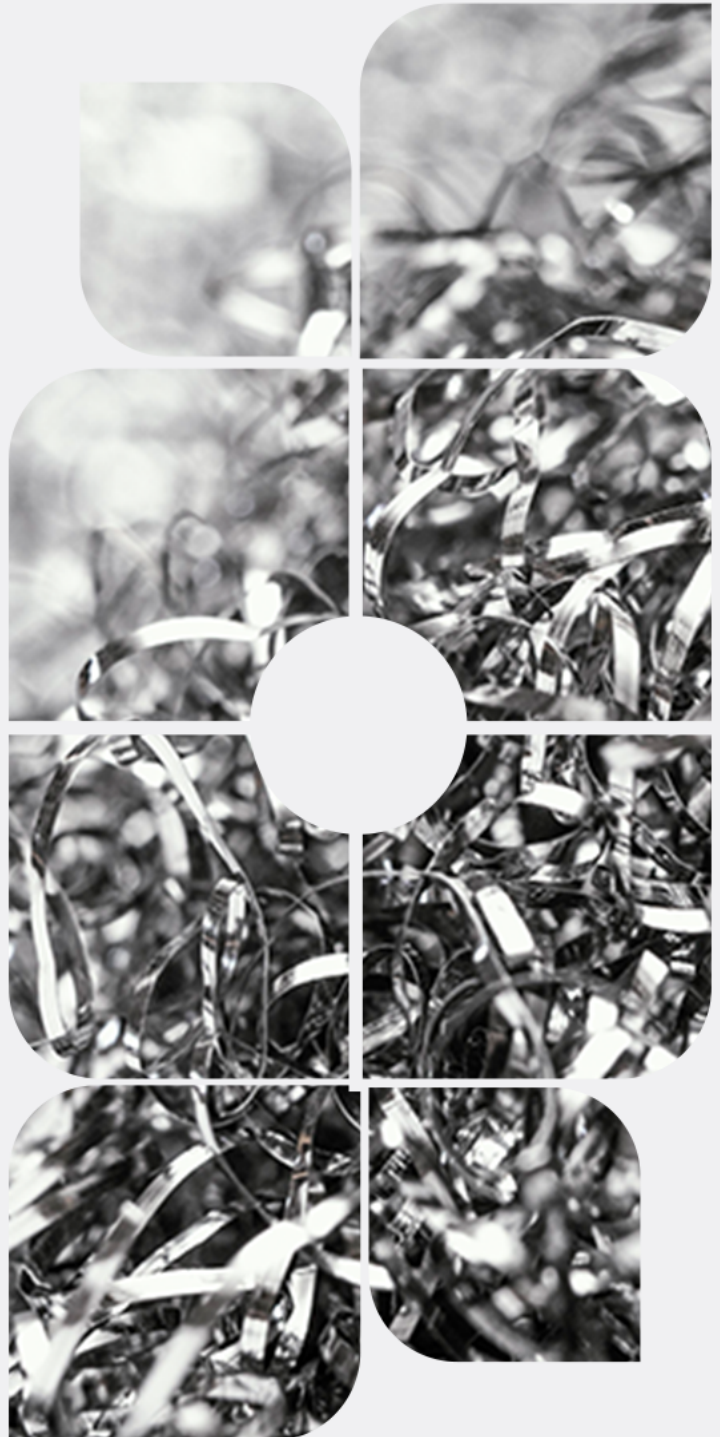

High-purity materials meeting industrial standards.

Reliable bulk supply with flexible contract options.

Commitment to zero-waste and ethical sourcing.

SUSTAINABILITY & RESPONSIBILITY

We are deeply committed to eco-friendly recycling and waste reduction. Our end-to-end recycling chain ensures minimal environmental impact while promoting material reuse across industries.
